

E-Z CLAMP

▶ ONE-PIECE PIPE, CABLE AND CONDUIT STRUT CLAMP

The EZ Clamp from G-STRUT – means easy/secure installation!

- Versatile in the field
- Heavy-duty construction with electro-galvanized finish
- Full range of sizes from 1/2" to 4"
- Adapts universally with equal trade sizes – rigid conduit, EMT, cable, etc.
- Works with all strut channel depths from 13/16" to 3-1/4"
- One fully assembled piece right out of the box
- One hand installation
- Captured bolt attached to load distribution plate saddle; no small fasteners to drop
- Protective saddle inhibits cable and conduit damage
- Universal hex bolt head easily fastens with nut driver, screwdriver, wrench or ratchet
- Makes side-to-side conduit runs easier to install
- Can be easily removed/repositioned without disturbing adjacent clamps in run
